

1-Wire Breakout Cable for AbioWire

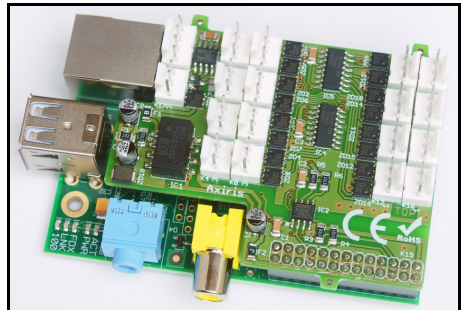

User Manual

Color	Description
Red	5 V
Orange	DQ (data)
Brown	GND

1-Wire breakout cable
for use with the
AbioWire card

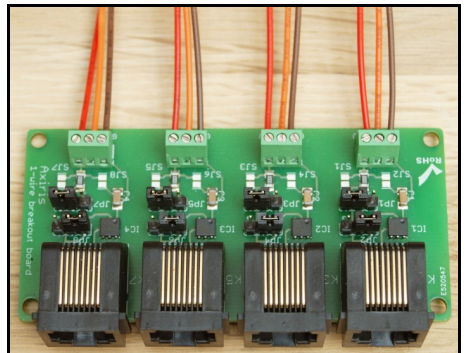

The breakout cable can be plugged into any of the seventeen 1-Wire connectors that are available on the AbioWire card.

Multiple breakout cables can be connected to a 1-Wire breakout board.

A jumper in each breakout circuit on the board allows you to configure whether the 5 V line of the breakout cable is interconnected with the RJ45 receptacle.
